XF-2016 IP

High Speed Foil Digital Printer

TECHNICAL PARAMETERS

Model of Equipment	XF-2016 IP
Printing Size	2000mm
Print Head Type	Epson Printheads
Print Head Quantity	16
Printing Speed	2 pass: 240m/h
Media type	Customized Foil Film
Heating system	Four groups of high-power drying
Cleaning function	Siphon mode/positive pressure ink mode
RIP Software	Riprint/Montana/Neostampa
Operation environment	Temperature: 20-30°C Humidity: 45-65%
Power requirements	AC220V (±10%); 50HZ; Machine power: 4800W External drying: 12000W
Printer dimension	Main machine size: 4100mm*1210mm*1800mm Feeding and discharging system: 2330mm*1350mm*1100mm
Printer weight	Machine: 1600kg Material collection and discharge system: 460kg
